Summary

Junior Fullstack Developer | React.js, Golang, PostgreSQL,
WordPress

I am a dedicated Junior Fullstack Developer with a broad skill set encompassing both front-end and back-end technologies. I specialize in building responsive and visually appealing web interfaces using HTML, CSS, and Bootstrap. My expertise in React.js enables me to create dynamic and interactive user experiences.

On the server side, I utilize Node.js and Golang to develop robust and scalable applications. My knowledge of PostgreSQL helps me design and manage efficient databases. Additionally, I have practical experience with WordPress, which allows me to create and customize websites effectively.

Currently, I am pursuing a Bachelor's degree in Information Systems at Universitas Terbuka. I have also completed various certifications in basic web programming, back-end development, JavaScript, and AWS Cloud fundamentals.

My professional experience includes roles such as Content Writer at INDOZONE, Internet Marketeer at bridespedia, and Team Leader at PT Patigeni Teknologi Indonesia. I am passionate about continuous learning and am always looking to expand my skill set and contribute to my team's success.

Experience

INDOZONE
